S3-Link Auto Export Email-to-Case Attachments

We have a feature that auto moves Email-to-Case attachments in Amazon S3 and attaches them with parent records. You will just have to enable that feature. Follow the below steps to enable the auto export Email-to-Case attachments feature.

- 1. Navigate to the **S3-Link** app.
- 2. Go to S3-Link Administration > Open the File Export Configuration.
- 3. In the Salesforce Attachments & Files section, set the **Auto Export Salesforce Files** checkbox to true in the Salesforce Attachments & Files section.
- 4. In the Email Attachments section, set the Link Email Attachments to Email Parent and Show Email Attachments in S3-Files List checkboxes to true in the Email Attachments section.
