

S3-Link Salesforce Partner Community Setup

Follow below steps to enable files for partner community or portal users

1. Go to Setup > Sharing Settings.
2. Set "Organization Wide Defaults" for "S3-Folder" to "Public Read/Write".
3. Go to S3-Link Administration > S3-Link Access Management.
4. Grant access to partner community / portal users. You can also use "Grant Access to All" to grant access to all users.
